

HLS™ 7 Series*
Multipoint Hardware System

Made right. Made here.

HOPPE North America, Inc. is the only manufacturer of stainless steel multipoint systems in the United States. Made with impeccable quality in Fort Atkinson, Wisconsin, the HLS™ 7 Series* is engineered to stand the test of time.

- Manufactured from 300 Series Stainless Steel and other non-corrosive components which prevent rust, corrosion and pitting.
- Backsets of 45mm (1.77) and deeper backsets available.
- Features HOPPE's Limited Lifetime Mechanical Warranty.

Systems:

- **Active Shootbolt** – Added vertical strength and security by engaging in the head and sill of the door frame.
- **Active Tongue** – Retracts into the edge of the door when open, giving a smooth, clean appearance.
- **Active Swinghook** – Extends the reach into the jamb farther for added protection.
- **Active Swinghook / Shootbolt** – Highest level of security through the swinghooks which extend into the frame and the shootbolts engaging into the head and sill of the door frame.
- **Active Tongue / Shootbolt** – Shootbolts engage into both the head and sill of the door frame as well as two tongues into the frame.
- **Inactive Shootbolt** – Security on the secondary panel through the handle-operated shootbolt throw engaging in the head and sill of the door frame.
- **Inactive Rod Lock** – Secures the door at the head and sill when there is no astragal between the door panels on a French door or used with an astragal to conceal the faceplate.

Same form, added function.

The HLS™ 7 Series* incorporates many new performance enhancements with this next generation of HOPPE Multipoint Locking Systems.

- Anti-Back Drive prevents locking points from disengaging from the outside for added security.
- Latch Blocker on inactive systems will not allow multipoint activation until inactive system is activated.
- Lock Out Feature on interior set allows for multipoint activation from the exterior of the door by lifting the handle.
- Simultaneous Retraction enables all locking points to be retracted by pushing down on the inside handle in one simple motion.
- Intuitive Design allows for an easy operational sequence to lock and unlock the door.

Unlocked position

Impeccable style.
Unmatched performance.

Choose your backplate.

Quality has a distinct look with elegant design and fine detail. Just choose your backplate and handle combination to make a statement of sophistication.

- Backplate and cylinder housing are forged into one piece for improved appearance, better water resistance, and easier installation.
- US-style cylinder lock located above the handle for easy accessibility.
- Locked or unlocked status of the door can easily be seen from a distance due to 90 degree cylinder operation.
- Traditional (M2172N) and Contemporary (M2167N) backplate styles to compliment any home decor.

Traditional (M2172N)

Contemporary (M2167N)

München (M112P)

Toronto (M1020)

Athinai (M156)

Verona (M151)

Ródos (M1603)

New Orleans (M1610)

Choose your handle.

With influences from around the world, HOPPE offers handle styles from sleek contemporary to detailed traditional, each with its own unique features, making a statement that luxury is present in each meticulous detail.

- Available in all current HOPPE brass handle series, twelve finishes, and two new backplate styles.
- HOPPE's proprietary Quick-Fit Connection™* handle mounting system allows for the handle to be pushed onto the spindle, eliminating set screws for easy installation.

Pick your finish.

The deep, warm luster of brass is obvious in every HOPPE brass handle. HOPPE finishes help you reflect your personal taste to complete that perfect look.

- Twelve distinct solid brass finishes.
- Select finishes are available with our exclusive Resista® finish that protects your handles against tarnishing, peeling and cracking to ensure that your handle stands up to daily usage while still maintaining the same rich luster as the day it arrived on your door. (All Resista® finishes are indicated by an "R" after the color code and are covered with our Resista® Finish Lifetime Warranty.)
- HOPPE brass requires no special care. Just use water and a soft cloth.

Resista®
Limited Lifetime Finish Warranty
